ANNEX 1

ABRIDGED TERMS OF REFERENCE

CONSULTING SERVICES FOR CONSULTANCY TO DEVELOP A STRATEGIC PLAN FOR EAFF

Introduction

The Eastern Africa Farmers' Federation (EAFF) is a regional democratic non-governmental organization whose membership consists of national farmer organizations, apex cooperative associations, apex commodity associations and apex women farmer organizations in ten countries in eastern Africa – Burundi, Democratic Republic of Congo, Djibouti, Eritrea, Ethiopia, Kenya, Rwanda, South Sudan, Tanzania and Uganda. EAFF's role is to promote the interests of farmers on issues touching on markets, productivity, capacity, information, and regional integration.

The growth of the East Africa Farmers Federation (EAFF) can be witnessed by its gradual progression of its focus from inception to date. At the onset, the establishment focused on increasing visibility as well as its membership base. This was successfully attained and with its success came a re-look in the direction of the organization, towards focusing on policy issues intended to support the core functioning and outputs of its members. This was guided by a strategic plan that was in place between 2008 and 2011. At the end of this period, and with an aim of further optimizing the gains for its members, the EAFF re-engineered its strategic direction to embrace entrepreneurship by getting involved in aggregation and linking farmers to markets. Hence a new strategy that would guide the new thinking for the organization was put in place to serve the period 2013-2020. The new thinking had four strategic objectives, namely: Strengthening farmers as key actors in the value chain; a dynamic regional platform for policy advocacy, development, implementation and accountability; a functional and effective knowledge hub for farmer development; and a vibrant, self-sustained, effective and efficient organization.

To assess the progress made in attaining the objectives of EAFF' second strategic plan, the EAFF board through its secretariat organized a regional meeting with all her members later in 2019. In this strategy, prominence was given to sustainability efforts for the organization. The meeting noted that various gains have been made since then. Recommendations and numerous suggestions to consider when developing the third strategic plan were given which are included in the report of the meeting.

EAFF is expected to prepare a eight- year strategic plan 2012-2029 which sets the long term direction for the implementation of its mandate in phase 3. In this phase, EAFF will continue to build the capacities of her member organizations to provide relevant economic services to their

members. By building their capacities, EAFF intends to ensure that farmer organizations play a more effective role as the voice of farmers.

Terms of References

EAFF received a grant from EU- ACP Secretariat under the programme dubbed Farmers' Organizations for African, Caribbean and Pacific Countries (FO4ACP) that runs from 2019 until 2023. The overall objective of the programme is to increase income and to improve livelihood, food and nutrition security and safety of organized smallholder and family farmers in the target areas of the ACP countries. The programme's specific objectives are threefold: 1) FOs and farmer-led enterprises improve technical and economic services to their members along the value chains; 2) FOs influence policies and business environments for the transformation of family farming and the development of sustainable, adaptive economic initiatives and farmer-led enterprises; 3) FOs are accountable organizations able to effectively perform their institutional functions.

The programme expected outcomes are: i) improved capacity of FOs to deliver technical and economic services and connect their members to markets, ii) improved access of FOs to financial services, iii) improved business environment and smallholder competitiveness, iv) strengthened institutional capacities and professionalism of FOs and, v) enhanced knowledge and dissemination among peers for replication and scaling-up.

This program follows the Support to Farmer Organizations in Africa Program (SFOAP) that was implemented from 2013 to 2018. During that period, EAFF provided support to her member organizations to engage effectively in selected value chains in the region.

The overall objective of this consultancy is to develop a eight year Strategic Plan to ensure that EAFF fulfils its mandate.
